

Press Release

PLUTA attorney Stefan Meyer appointed provisional administrator for ERKA Maschinenbau GmbH

16 October 2025 · Münster · Business Area: Insolvency Administration

Business remains operational – restructuring options being examined

ERKA Maschinenbau GmbH based in Ahaus has filed for insolvency. On 10 October 2025, the Local Court of Münster ordered provisional insolvency proceedings and appointed Mr Stefan Meyer, a specialist attorney for insolvency and restructuring law with PLUTA Rechtsanwälts GmbH, as provisional administrator.

The company, which specialises in machining complex turned and milled parts, remains operational. The 54 employees were given detailed information about the current situation during a staff meeting on 13 October 2025. Their salaries are guaranteed for a period of three months thanks to specific substitute benefits provided under German insolvency law. The insolvency administrator is currently putting considerable effort into arranging the pre-financing of these benefits to ensure the fastest possible payment of the wages and salaries.

Initial findings suggest that ERKA's financial problems have resulted from the poor overall economic environment, the difficult situation in the mechanical engineering sector and a sharp drop in incoming orders,

About PLUTA

PLUTA assists companies facing legal and financial challenges. The firm provides support for reorganisations and transactions and helps companies to restructure and maintain their operations in crisis and insolvency situations. If necessary, PLUTA restructuring experts may also assume leadership roles in other businesses. Since the company was founded in 1982, PLUTA has constantly grown and today has a staff of approximately 500 employees in Germany, Spain and Italy. More than 290 business and management experts, attorneys, business lawyers, tax consultants, public auditors, certified accountants, economists, banking and bookkeeping experts, engineers and insolvency administration specialists, many with multiple qualifications, ensure practicable and economically sound solutions. PLUTA is one of the top restructuring companies, as demonstrated by rankings and awards from INDat, JUVE, The Legal 500, Who's Who Legal, brand eins, Wirtschaftswoche and Focus. Further information is available at www.pluta.net.

Press Release

combined with persistently high costs. These factors have led to insufficient capacity utilisation, put significant pressure on the company's results and, in particular, created a strained liquidity situation. Given these circumstances, the company ultimately had to file for insolvency.

Managing director Mr Christian Roterring said, "We are facing a difficult period but will do everything within our means to keep the business stable. We want to find a long-term solution together with the provisional administrator and we remain confident in this regard."

In an initial statement, attorney Mr Stefan Meyer said, "We are currently reviewing the company's overall financial situation, carefully analysing the orders on hand and holding discussions with all key stakeholders while the proceedings are ongoing. We will stabilise the business over the coming weeks so that we can then focus on the possible restructuring options. Our goal is to establish a strategy for the sustainable preservation of the company and its jobs." He is being supported in the proceedings by attorneys Dr Ria Brüninghoff and Mr Leon Linz. With assistance from PSM (with business management expert Mr Christian Plückebaum as lead there), the PLUTA team plans to gain a comprehensive overview of the company's operational and financial situation. Mr Oliver Ruhe-Schweigel from law firm ks rechtsanwälte + notare gbr, Essen, is acting as attorney of record for ERKA Maschinenbau GmbH and ensured the proceedings were initiated quickly and in a highly professional manner.

Founded in 1984, ERKA Maschinenbau GmbH has strong

expertise in mechanical engineering, offering a full range of metalworking services, and also specialises in contract manufacturing. The company's core strengths lie in the production of machine parts based on external designs as well as complete machines, especially equipment for specialised cardboard manufacturing. ERKA uses modern CNC machining centres to manufacture components and complete systems. The company builds prototypes and produces both individual pieces and series products.
